## Ranking Summary

Highest Ranked Items			
1	Instructor was genuinely interested in educating the students.	Engineering Required Items	4.82
2	The assignments, quizzes, and tests were fair and covered the material emphasized.	Engineering Required Items	4.82
3	Instructor was available to answer questions.	Engineering Required Items	4.70
Lowest Ranked Items			
1	The material was presented clearly.	Engineering Required Items	4.55
2	Instructor's overall performance in this course was excellent.	Engineering Required Items	4.55
3	Instructor was well prepared in class meetings.	Engineering Required Items	4.64

Overall, I enjoyed this class. While I've taken a few machine learning courses at UNLV, this one provided a lot of real world context for how it can be applied. Additionally, this was the first class I've taken that included guest lecturers. I found it to be a good way of learning about research topics from experts in that area.
I really enjoyed Dr. Lin's lectures but I felt the class was more of an introductory class for undergrads than a 700 class for graduate students. I think she was trying to be considerate of the other students since there was an undergraduate in our class, but I feel like his presence negatively affected the flow of the class.
It was my second class with Dr. Lin, she presened the class material well and gave proper insights regarding the course.
